

Exchange Notice to Employees – Affordable Care Act

Dear Employee,

Enclosed is a Notice entitled “New Health Insurance Marketplace Coverage Options and Your Health Coverage.” The health care reform law, known as the Affordable Care Act (ACA), requires that employers provide this Notice to all new employees within 14 days of hire. The Notice provides information about the Health Insurance Marketplace, as well as information regarding the health coverage offered by the College of Central Florida (CF).

As a result of the ACA “individual mandate” which took effect in January of 2014, most people are required to have health insurance or pay a tax penalty. Your health insurance coverage can come from your employment, your spouse’s employment, through a policy you buy on the Market place, or through a government-sponsored program like Medicare or Medicaid. Providing this Notice to you will assist you in making an informed decision about your health coverage.

Full time employees and their eligible dependents can participate in the College of Central Florida’s group health insurance plan. CF’s health plan meets the individual mandate standard.

Here is how CF’s health insurance plans measure up under the ACA criteria for determining whether a plan’s coverage is adequate and affordable for its participants:

- Coverage is considered “minimum value” under the ACA if the plan benefits cover at least 60% of eligible expenses. CF’s health insurance plans meet the ACA minimum value standard.
- Coverage is considered “affordable” under the ACA if the premium cost for employee-only coverage is not more than 9.83% of your household income. For example, if your household income (including your wages) is \$20,000, your coverage would be considered affordable if your employee-only coverage does not cost you more than \$1,966 a year. CF’s health insurance plans meet the ACA affordability standard.

The enclosed Notice states that you may be eligible for federal premium subsidies if you purchase health insurance on the Marketplace. Because CF’s health insurance plans meet the minimum value standard, you and your eligible family members would not qualify for a premium assistance tax credit to buy coverage through the Marketplace (if otherwise eligible based on your income and other factors).

For further information, please read the attached Notice. Additional information about the Marketplace can be found at www.HealthCare.gov. If you have questions relative to CF’s health insurance plans, please contact the Office of Human Resources.

New Health Insurance Marketplace Coverage Options and Your Health Coverage

PART A: General Information

The Health Insurance Marketplace opened in 2014. To assist you as you evaluate options for you and your family, this notice provides some basic information about the Marketplace.

What is the Health Insurance Marketplace?

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace offers "one-stop shopping" to find and compare private health insurance options. You may also be eligible for a new kind of tax credit that lowers your monthly premium right away.

Can I Save Money on my Health Insurance Premiums in the Marketplace?

You may qualify to save money and lower your monthly premium, but only if your employer does not offer coverage, or offers coverage that doesn't meet certain standards. The savings on your premium that you're eligible for depends on your household income.

Does Employer Health Coverage Affect Eligibility for Premium Savings through the Marketplace?

Yes. If you have an offer of health coverage from your employer that meets certain standards, you will not be eligible for a tax credit through the Marketplace and may wish to enroll in your employer's health plan. However, you may be eligible for a tax credit that lowers your monthly premium, or a reduction in certain cost-sharing if your employer does not offer coverage to you at all or does not offer coverage that meets certain standards. If the cost of a plan from your employer that would cover you (and not any other members of your family) is more than 9.83% of your household income for the year, or if the coverage your employer provides does not meet the "minimum value" standard set by the Affordable Care Act, you may be eligible for a tax credit. An employer-sponsored health plan meets the "minimum value standard" if the plan's share of the total allowed benefit costs covered by the plan is no less than 60 percent of such costs.

Note: If you purchase a health plan through the Marketplace instead of accepting health coverage offered by your employer, then you may lose the employer contribution (if any) to the employer-offered coverage. Also, this employer contribution – as well as your employee contribution to employer-offered coverage – is often excluded from income for Federal and State income tax purposes. Your payments for coverage through the Marketplace are made on an after-tax basis.
